Jose Manuel Espinal Peña

# Configuración avanzada del router residencial

The screenshot shows the ARRIS router configuration interface in a web browser. The browser's address bar displays '192.168.0.1'. The page has a dark header with the ARRIS logo and navigation tabs for 'Wireless', 'HSD', and 'Logout'. Below the header, a horizontal menu contains 'Basic Setup', 'WAN Setup', 'LAN Setup', 'Wireless 2.4 GHz', 'Wireless 5 GHz', 'Firewall', 'USB', and 'Utilities'. The 'Basic Setup' tab is active, showing a sidebar with 'BASIC SETUP' (highlighted), 'BASIC SETUP', and 'LOGIN SETTINGS'. The main content area is titled 'System Basic Setup' and includes a descriptive paragraph. It features three sections: 'Basic Setup' with fields for Language (English), Host Name (ARRISGW), and Routing Enabled (checked); 'Wireless 2.4 GHz' with fields for Enable Wireless (checked), Wireless Network Name (ARRIS-0034), and Pre-Shared Key (masked); and 'Wireless 5 GHz' which is partially visible at the bottom. Each field has a question mark icon for help. Links for 'More LAN Settings...' and 'More Wireless Settings...' are provided at the end of their respective sections.

## System Basic Setup

While your system has many configuration options, the options on this Basic Setup page are those required by most users. Click the tabs to access the other configuration pages to set advanced options. Hover the mouse pointer over the question mark icon next to an option to view a description of that option. For changes to take effect, you must click the Apply button.

# Configuración avanzada del router residencial

The screenshot shows a web browser window with the address bar displaying '192.168.0.1/?lan\_settings'. The browser's address bar also shows a warning 'No seguro' (Not secure). The browser's tab bar includes several open tabs: 'HP® Computer and...', 'Welcome to Windows', 'Gmail', 'YouTube', 'Maps', 'YouTube', 'laptops and netboo...', 'Berlin', 'Take My Br...', 'https://portal.ustrav...', 'Nonimmigrant Visa...', and 'Watch contes perve...'. The router's configuration interface has a top navigation bar with tabs: 'Basic Setup', 'WAN Setup', 'LAN Setup' (selected), 'Wireless 2.4 GHz', 'Wireless 5 GHz', 'Firewall', 'USB', and 'Utilities'. On the left side of the 'LAN Setup' page, there is a sidebar menu with options: 'LAN SETUP' (highlighted in orange), 'LAN SETTINGS', 'LAN SETTINGS (IPv6)', 'CLIENT LIST', 'PORTS', and 'STATIC ROUTING'. The main content area is titled 'LAN Settings' and includes a descriptive text: 'You can make changes to the Local Area Network (LAN) here. For changes to take effect, you must press the 'Apply' button at the bottom of the screen.' Below this text, there are several sections: 1. 'LAN Segment' with a dropdown menu set to 'Subnet 1'. 2. 'LAN IP Settings' with input fields for 'IP Address' (192.168.0.1) and 'Subnet Mask' (255.255.255.0). 3. 'DHCP Server Settings' with a checked 'Enable DHCP Server' checkbox, and input fields for 'Start IP Address' (192.168.0.237), 'End IP Address' (192.168.0.254), 'Lease Time' (3600), and 'Domain Name'. 4. 'DNS Override' with an unchecked 'Enable DNS Override' checkbox and a 'Primary DNS Server IP' field set to 148.103.0.73. Each input field has a help icon (?) to its right.
